

Advanced Planning

Many people are currently planning in advance. In fact, last year over two million people took care of these necessary arrangements. It is one of the most thoughtful things that you may do for your family.

Planning in advance allows you to calmly make decisions in a relaxed atmosphere. You can make choices based on your personal wishes which removes the burden and stress that would otherwise be placed on family members. It will also help to eliminate some financial obligations to the family. We would like to have the opportunity to explain the benefits of Advanced Funeral Planning to you. Please let us know if we could be of service to you in this area.

Our Legacy

"A Caring Tradition and Celebration of Life since 1840" speaks of our past, our present and our future. One of the oldest family owned funeral homes in the nation, Tufts Schildmeyer carries on a tradition of outstanding personal service to the families we serve and to the community.

Beginning in 1840 with our founder Seth G. Tufts, who did a bit of everything under the shingle of S.G. Tufts Undertaking and Carriage Shop, the foundation of excellence was born. In the late 1800's Oscar B. Tufts, Seth's son, moved his undertaking business to an office in Loveland. His commitment to the business led his son Lawrence and wife Esther Tufts to purchase Captain Hegler's home on Riverside Drive in 1920.

Through many years of service, commitment and dedication from Bob and Marilyn Tufts Schildmeyer, Tufts Schildmeyer Family Funeral Home continued its rich tradition of outstanding service to the community.

Today we operate under the fifth generation leadership of Larry and Terry Schildmeyer along with the sixth generation, Larry Schildmeyer, Jr. and a staff of caring professionals.

With three "state of the art" facilities and a cremation center and a long practice of professional, compassionate and generous service, Tufts Schildmeyer is poised for the future with the commitment to continue reaching out to and serving the needs of the community.

Cremation

If you are considering cremation, two questions you **MUST** ask are, who owns the crematory and do you cremate responsibly?

Since we own and operate our own state of the art cremation facility that is impeccably clean and secure, your loved one will **NEVER** leave our care, unlike our competitors.

We are licensed and regulated by the State of Ohio, Environmental Protection Agency (EPA), Occupational Safety Health Administration (OSHA), Cremation Association of North America (CANA), and the Ohio State Board of Funeral Directors and Embalmers.

We adhere to strict standards such as the Cremation Code of Ethics by CANA, Certified Operators, Licensed Personnel and the encouragement of a family's personal inspection. We are the first to offer special "Witnessing" in our crematory that allow family members to be present at the start of the cremation process. We follow a strict tracking system that ensures each cremation is done without errors. We constantly monitor our tracking system and continue to maintain an A Plus rating.
